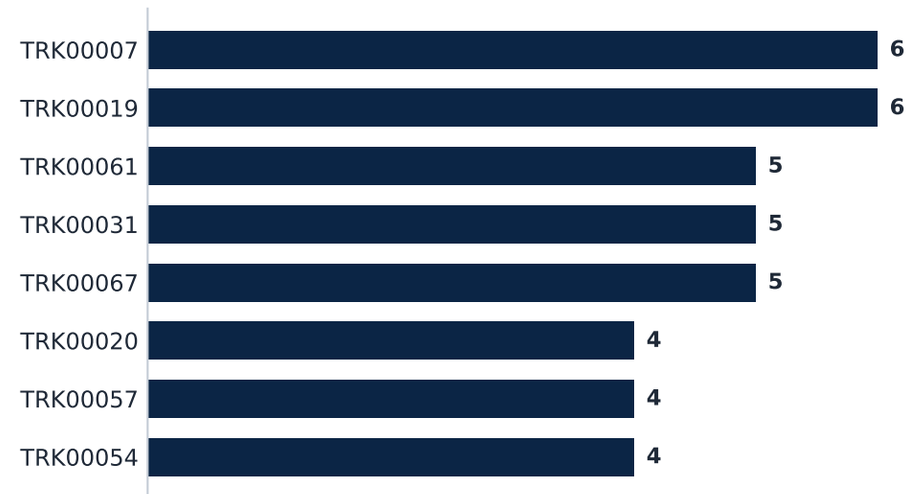
KEY INSIGHT

DOT violations lead

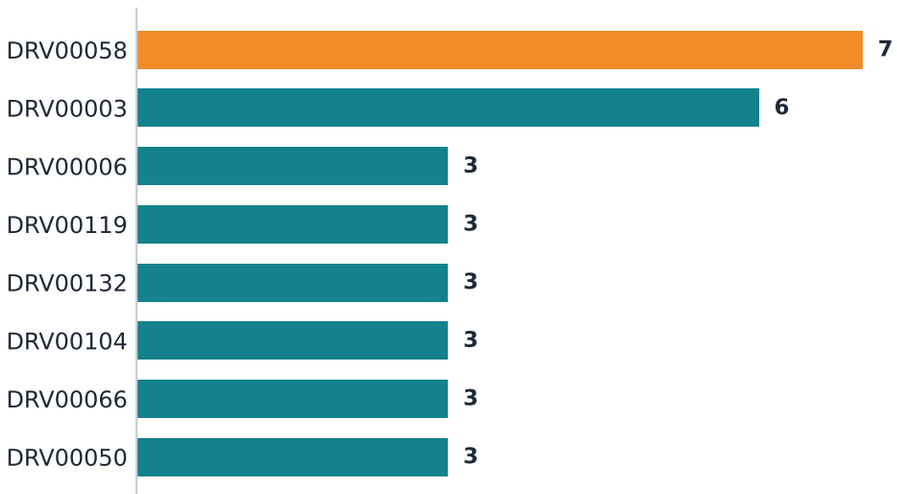
39 of 170 incidents (22.9%) are DOT violations, the most frequent category.

Equipment damage costs the most: $0.74M in claims.

Top 8 Trucks by Incident Count



Top 8 Drivers by Incident Count



Executive summary: Regulatory violations are the most frequent incident category, while equipment damage creates the greatest financial exposure. Looking at incident frequency separately from claim severity helps management spot both risky operating behaviours and high-cost risk areas.
