SAMYLOGIX | Fleet Cost & Maintenance Efficiency Dashboard

The major costs of keeping trucks on the road: fuel and maintenance · 2022 – 2024

Prepared by
Ubah Vivian

YEAR: All | 2022 | 2023 | 2024 | 2025

MAINTENANCE TYPE: All | Preventive | Repair | Tire | Brake | Engine | Transmission | Inspection

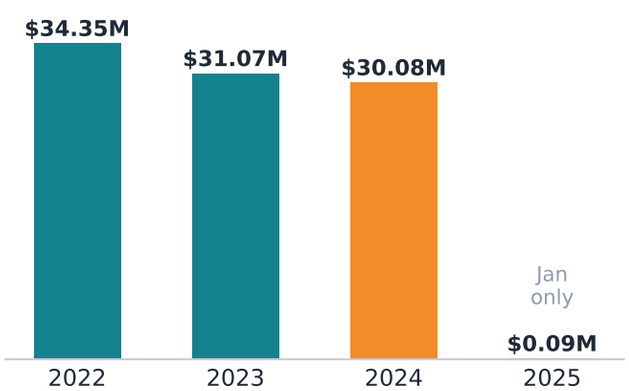
TOTAL FUEL COST
$95.59M
All fuel purchases

TOTAL MAINTENANCE COST
$5.73M
Parts and labour

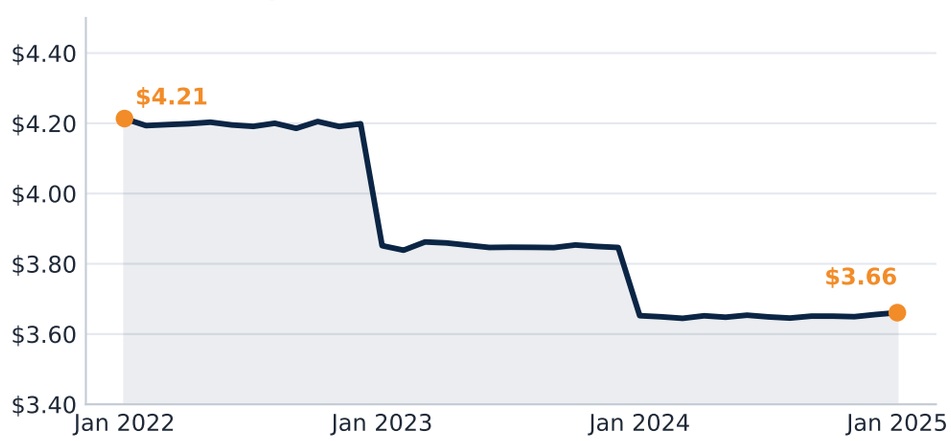
MAINTENANCE EVENTS
2,920
Service jobs logged

MAINTENANCE DOWNTIME
72,230.5 hrs
Trucks out of service

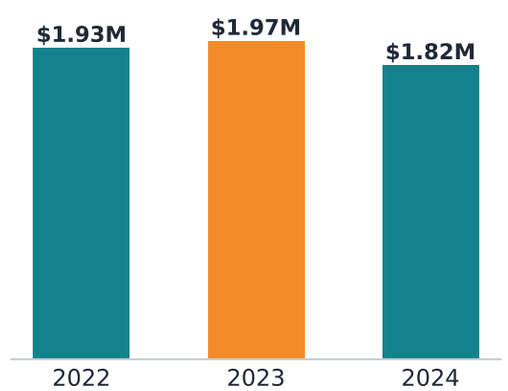
Fuel Cost by Year ($M)



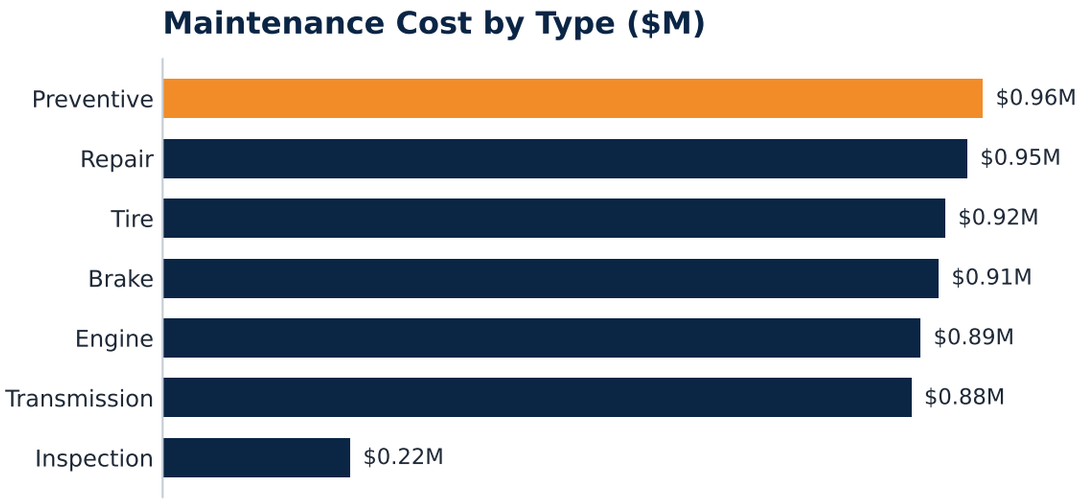
Fuel Price per Gallon Trend ($)



Maintenance Cost by Year ($M)



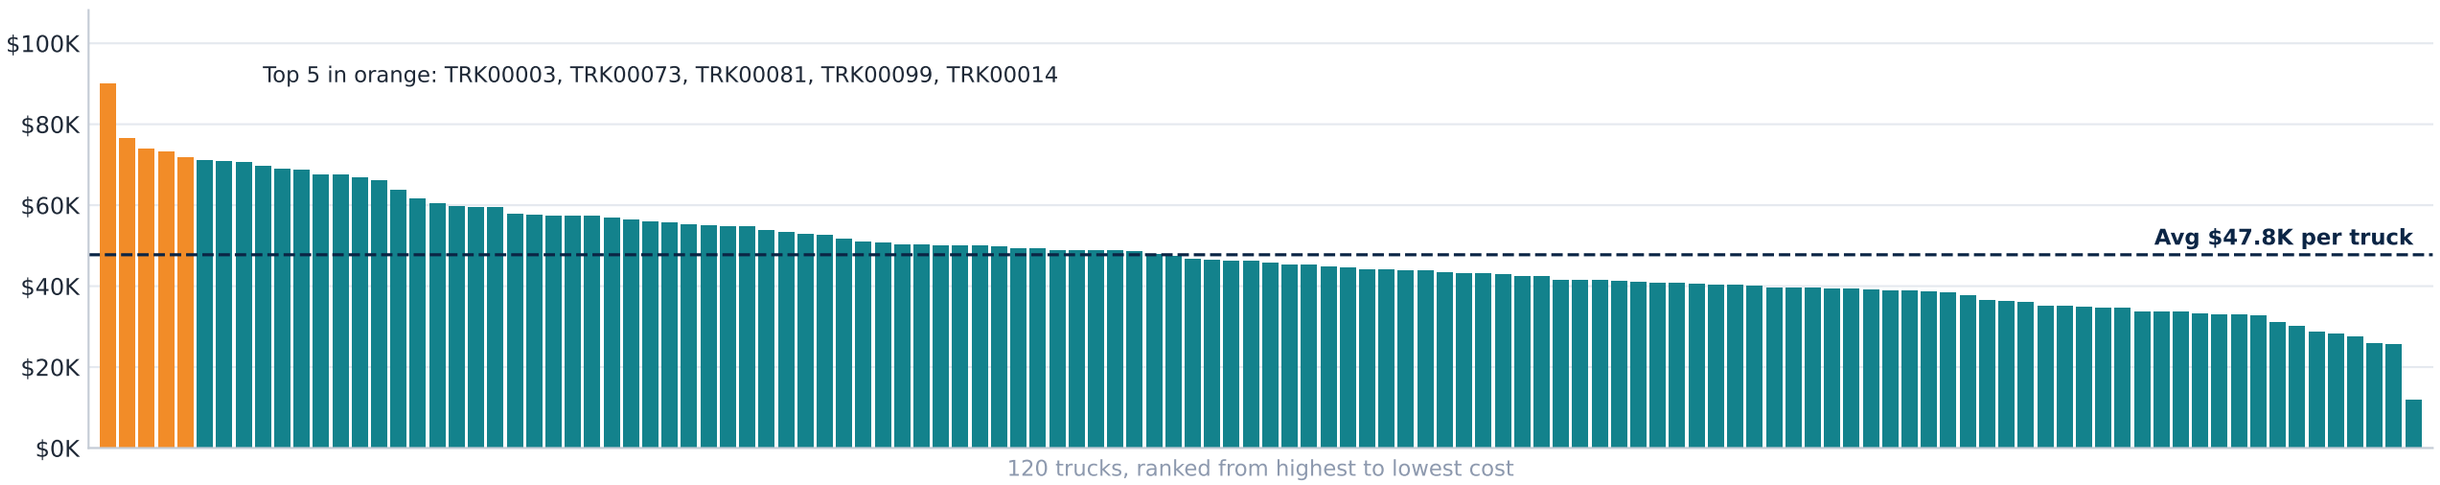
Maintenance Cost by Type ($M)



Key Insights

- Fuel is the biggest cost: $95.59M, about 94% of fuel + maintenance spend
- Fuel price fell from $4.20 to $3.65 a gallon, cutting yearly fuel spend by 12% since 2022
- Maintenance stayed steady at about $1.8M to $2.0M a year, spread across all six main service types

Maintenance Cost by Truck ($K)



Executive summary: Fuel is the largest operating cost, with maintenance a smaller but still significant expense. Falling fuel prices brought fuel spend down over the period, while maintenance cost stayed spread across preventive, repair, tire, brake, engine and transmission work.
